313-986-3042 | ibrahimozen0@gmail.com | <https://www.linkedin.com/in/ibrahimozen>

SUMMARY

Intuitive, passionate, and self-motivated professional with 6+ years creating product and user experience designs. Proficient in UX research and design management with collaborative and resourceful approach, ensuring high-quality designs with attention to detail that appease target market niches. Adept in utilizing research data to develop designs that increase brand recognition to consumers and non-consumers alike. Equipped with updated knowledge on manufacturing-oriented products, human-centered design processes with strong and visualization, presentation and verbal communication skills as well as on design software and participatory design methods. Recently completed master's thesis project related to a personal data privacy hardware / fashion accessory and a mobile app for digital adaptation powered by AI for older adults.

EXPERIENCE

User Interface Designer | Stellantis | Farmington Hills, MI | Nov 2020 – Present

- Designing the user interfaces for car connected mobile applications.
- Defining the design patterns for the visual sense of the corporate applications.
- Designing the car connected mobile applications' graphic library elements for the mobile application.
- Participating cross functional co-creation activities in order to enhance the user experience on the mobile applications.
- Creating the user flows of the car connected mobile applications.
- Creating iterative design solutions for specific features of the mobile application.
- Working closely with the product and developer teams to deliver designs ready for coding.

UX/UI Designer - Volunteer | FightPandemics | Dover, DE | Aug 2020 – Nov 2020

- Designing ideas using various methods and the latest technology.
- Designing graphic user interface elements, like menus, tabs, forms, and widgets.
- Designing, conceptualizing, recommending and implementing design changes, content enhancements, and mobile/ website layout including future community- building initiatives.
- Conceptualizing and building UI/UX for mobile first and then adapt it to desktop.
- Planning and running user research and A/B tests to optimize user engagement and design improvements needed to the user interface.
- Participating, leading, and programming all phases of the development process for user interface projects – from idea conception, to wire-frames and prototyping, and to design and implementation.
- Proposing and designing new ideas for enhancing engagement.
- Working closely with the product and tech teams to deliver hypothesis-driven designs and coding to improve the user interface.

Research Assistant | College for Creative Studies | Detroit, MI | Jan 2019 – May 2020

- Attended product design studio classes and contributed student project critique sessions.
- Managed the weekly appointments regarding one-on-one student meetings.
- Prepared an annual book of student works.
- Collaborated with the department chair regarding weekly course plans.

Product Designer | Tragen Kitchen Appliances | Turkey | Dec 2016 – Aug 2018

- Completed more than 30 kitchen appliances design projects and UI elements for new product family groups of OEM customers based on the target market's customer requirements and specifications. Designed products are manufactured at over 100,000 pieces per year in European, Middle East, and America markets.
- Worked closely with vendors, suppliers and OEM customers in order to obtain needed insights for the projects with regular troubleshooting meetings and detailed about logistics, production, and packaging.

- Created initial prototypes by using several softwares (Illustrator, Photoshop, Figma, Adobe XD) in order to deliver the comprehensive design package to the suppliers for embedding the designs to the new products.
- Participated in brand management, new product planning and UX research processes together with the marketing and the research and development teams. Lead the design processes from briefing to ultimate prototype and participated in the marketing process of the product such as defining the annual marketing-design strategies (trends of color and form, proportions, and product measurement categories based on market targets).
- Contributed in user research with a proactive approach, lab and usability testing of initial UI and product mockups and prototypes with focus groups in collaboration with the marketing and engineering teams to gather data regarding customer needs for next steps of design creation.
- Collaborated with the marketing team in order to create the website elements in order to improve the digital communication quality with enterprise level customers.

Product Designer | Candy Group Hoover | Turkey | Dec 2015 – Dec 2016

- Lead user testing processes of the initial design concepts before delivering to the engineering teams.
- Engaged in government-incentivized innovation projects for improved cooking experiences. Helped research teams to articulate data and ideas by visualizing initial concepts in ideation sessions. Worked collaboratively with cross team partners and other internal stakeholders to inspire and lead engineering team members with user experience principles and support for idea creation sessions.
- Prepared information architectures of the components that are designed for kitchen appliances in order to build a stronger communication with cross departments and deliver projects in more comprehensive ways and manage projects transparently. Created documentation of design processes from research to product line with visual presentations and information graphics in order to keep team leaders updated.
- Designed user interfaces of built-in ovens for LED screens, 7 segment screens. Created the initial prototype files in Balsamiq and handed over to the engineering teams.

Product Designer / Freelance | ibrahimozen.com | Turkey | Jul 2014 – Dec 2015

- Worked on product design and brand identity projects in Turkey. Worked for local small businesses to differentiate their brand recognition with innovative products and new branding language in their competitive business environment. Created regular content for local manufacturer's social media campaigns.

Product Designer / Intern | Kilittasi Design | Turkey | May 2013 – Aug 2013

- Did trend research about consumer products. Prepared motion design and showreel videos for new design projects.

Education

College for Creative Studies | Detroit, MI | May 2020
Master of Fine Arts in Integrated Design

Anadolu University | Turkey | Jan 2018
Associate's Degree in Brand Communications

Anadolu University | Turkey | Jun 2014
Bachelor of Arts in Industrial Design

Skills
